Sponsors the
Challenger Learning Center of Colorado

CORPORATE AND INDIVIDUAL SPONSORS STILL NEEDED!!

To keep program prices affordable for schools and other educational groups, we depend upon generous gifts and donations from corporate and individual sponsors. Please consider what you can do to help promote science, technology engineering and mathematics (STEM) education. The Colorado Consortium for Earth and Space Science Education is a 501(c)(3) nonprofit organization, and contributions are generally tax deductible. For more information, please contact our President and CEO, Tracey Tomme, by telephone at 719.234.1612 or by email at TTomme@clccs.org.

EDS	

Individual Donors

CESSE and CLCC have also received generous donations from individuals—from \$3.82 to ... well, thousands. We are grateful for them all! But their names are not listed here because we are committed to protecting their privacy.

Our contributors are greatly appreciated! Your support is vital to our ability to serve students in the Pikes Peak Region!
